

DATA MINING YOUR CHILD

Data collection is the **BLOODLINE** for continued funding of Social Emotional Learning (SEL)

BREAK THE INDOCTRINATION CYCLE

Schools cannot justify SEL if enough parents opt their children out of in-class surveys

CYCLE OF INDOCTRINATION

THE PLAN

Create systemic change in schools for perceived social injustice

- Collect data from in-class surveys
- Data justifies radical changes to system
- Lessons on critical race theory tenets
- Gender ideology influence/clubs
- Radical sexualization education
- Obscene literature
- Reduced discipline policies
- Increased school counselors
- Diversity-inclusion with equity emphasis

THE PROCESS

Subjectively Interpret attitudes, morals, values, and worldview

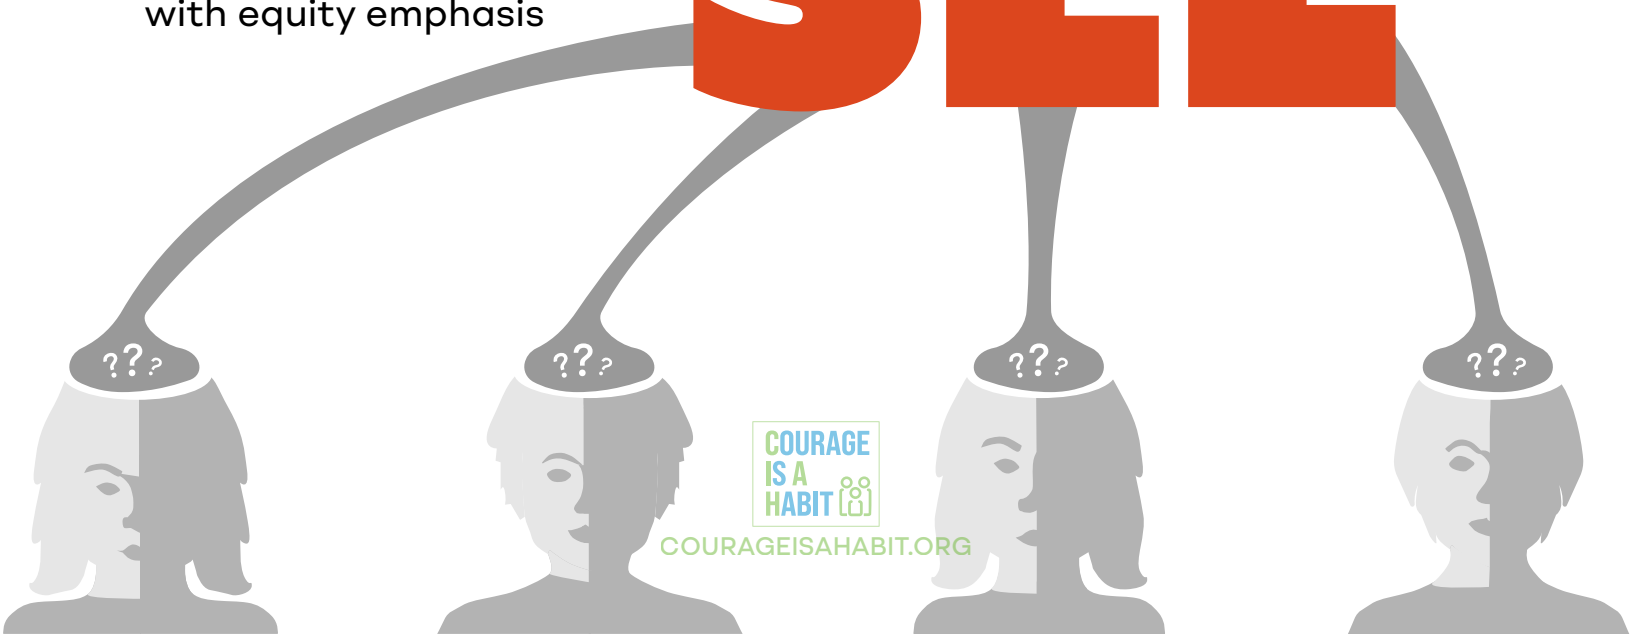

- Data used as driving force for SEL
- Interpreted through biased "equity lens" finding oppression in every situation
- Manipulated outcomes used as "actionable data-points" to make changes in school culture to support equity

THE RESULTS

SEL data used to continuously feed cycle of radicalizing students

- Create social justice systemic change
- Brainwash children as "agents of change" through practices, policies, and culture
- Results transform systems and infect your children
- Data is stored and will follow them for life

SEL

CALL TO ACTION

OPT OUT

Every Parent Can Do This!

Opt Your Children Out Of In-Class Surveys

- Complete the Opt Out form provided [here](#) (last page)
- Forward to other parents
