Subject: Censorship

WARNING: EXTERNAL EMAIL - THIS EMAIL DID NOT ORIGINATE FROM WCS

Good morning,

The live feed audio being cut last night was the most blatant censorship that I've witnessed thus far. If the book content is deemed appropriate by the school, then the reading of said passages, SHOULD NOT be an issue. It causes me even more concern that muting people, in order to hide the materials and stop the information from others. Carol Birdsong should absolutely have consequences for censoring and violating constitutional ammendment # 1. I am appalled at the level of deceit, to hide the content our WCS students are available to see.

The children, parents and teachers of WCS deserve more transparency, less tyrannical leaders and to be rid of FHS, CRT, SEL, DEI, pornography, and dark/depressing content at every turn. Following the money helps all the constitutes to see who you really work for. This parent, is taking notes at every meeting, involved with other's in the quest to stop the indoctrination of the children in this county.

The TRUTH doesn't mind being questioned. A lie doesn't like being challenged.

Thank you for your time,

Casey Cervarich
