~~Commissioner's Update for Directors~~

12,710

We will set all students on a path to success.

If we are successful, then Tennessee will see a substantial increase in the number of students on-track to meeting postsecondary goals two years after graduation.

Key Updates

★ TDOE Awards UTK, Deans for Impact Innovation Grants to Develop Focused Coursework for Future Tennessee Educators

Audience: Director of Schools

Contact: [REDACTED]

Yesterday, the Tennessee Department of Education announced \$642,000 in grant funding has been awarded to the University of Tennessee, Knoxville and Deans for Impact to support the development of literacy- and trauma-informed- coursework for use by all Educator Preparation Providers (EPPs) in the state, in compliance with new law and State Board of Education rule, to help teacher candidates be prepared to meet the needs of Tennessee students.

During the state's special legislative session in January, the [Tennessee Literacy Success Act](#) was passed, which included new requirements for EPPs. In July, the State Board of Education voted to update the literacy standards for educator preparation. These new standards require all K-2 teachers to incorporate the Foundational Literacy Skills Standards, use of high-quality instructional materials, and trauma-informed instruction into their lessons to support early-grade preparation. Additionally, the curriculum resources will cover multiple endorsement areas, including special education and instructional leadership.

To be accessible to all EPPs in the state by the fall of 2022, these funds focus on developing coursework and curriculum content that can be integrated into existing courses in priority areas of

focus, including foundational skills, implementation of high-quality instructional materials, and trauma-informed instruction. The curriculum resources will also focus on supporting students with disabilities, English language learners, and delivery in a virtual setting to ensure prospective teachers are successful in their future classrooms.

For more information, click [here](#).

★ TDOE Announces 79 Districts Intend to Participate in TN ALL Corps Tutoring, Serve Nearly 150,000 Students Over Three Years

Audience: Director of Schools

Contact: [REDACTED] & [REDACTED]

Last week, the Tennessee Department of Education announced [79 school districts](#), over half of all districts in the state, intend to participate in the [Tennessee Accelerating Literacy and Learning Corps](#) (TN ALL Corps) tutoring program to mitigate learning loss and accelerate student achievement. The participating districts and the department will invest a projected \$200 million in federal education funding in TN ALL Corps tutoring supports which stands to benefit nearly 150,000 Tennessee students over the next three years.

TN ALL Corps is a matching grant opportunity to empower districts to implement or strengthen tutoring supports for students in low ratios and at a high dosage, with TN ALL Corps tutoring occurring for small groups of students in 30–45-minute sessions, two to three times per week. This approach [in combination with summer programming](#) will provide students with 250-500 additional hours of academic instruction over the next three years and two summers.

Structured tutoring programs have been proven to significantly increase student achievement. As part of the [Tennessee Learning Loss and Student Acceleration Act](#) passed in the special session, the TN ALL Corps will support students across the state by providing access to tutoring in both English Language Arts (ELA) and math.

The formal application for TN ALL Corps is live in ePlan for all districts that submitted the intent to apply. A detailed guidance document outlining allowable uses of funds, instructions for budgeting local match dollars, and instructions for completing the application in ePlan can be found [here](#), or in ePlan under TDOE Resources > Grants > TN ALL Corps.

A list of districts intending to participate is available [here](#). Read more [here](#).

★ TDOE, TERA Releases 2021 Tennessee Educator Survey Results

Audience: Director of Schools

Contact: [REDACTED]

Last week, the Tennessee Department of Education and Tennessee Education Research Alliance (TERA) [released key findings and responses from the 2021 Tennessee Educator Survey](#) from 40,000 educators, representing over half of the state's educator population.

This survey collects data to understand educator experiences to provide direct feedback that will inform decision-making on key issues facing our schools and classrooms. This year's survey included questions to explore the instructional challenges due to COVID-related disruptions.

Key findings from the 2021 survey are below:

- Tennessee educators' top COVID-19 related concern was students missing instructional time during the school year. Teachers indicated fewer challenges for in-person instruction than for remote learning during the 2020-21 school year.

- Teachers continue to need more support to help meet the non-academic needs of students and families.
- Despite a challenging school year, job satisfaction and perceptions of school climate remains positive among Tennessee educators – continuing a positive trend that began in 2018

State-, district-, and school-level data is now available on the [survey results website](#) and the Tennessee Educator Survey: 2021 Overview brief can be found [here](#).

★ ELC Grant Opportunity to Support COVID-19 Testing– Round 2

Audience: Director of Schools

Contact: [REDACTED]

The department is excited to announce a second round of ELC grants in conjunction with the Tennessee Department of Health for LEAs and non-public schools to support the reopening and in-person instruction of K-12 schools through comprehensive screening testing. Initial testing would begin once the application is approved and extend through July 31, 2022. This opportunity is open to all LEAs and non-public schools who did not apply during the first round of grants.

If you are interested in this opportunity, you must complete an [Intent to Apply form](#) between October 11-25, 2021.

Applications will be open for LEAs and non-public schools in ePlan on November 8, 2021. Once awarded, ELC grant funds will be available upon an approved application and expire on **July 31, 2022**.

Information and materials to support LEAs and non-public schools with the ELC grant are and will be available in [ePlan.tn.gov > TDOE Resources > Epidemiology & Laboratory Capacity \(ELC\) Grant](#). Please review these resources to learn about the focus areas supported by these supplemental grant funds and the application components that will be required when the ELC application goes live.

★ The Great Central U.S. ShakeOut Toolkit 2021

Audience: Director of Schools, Emergency Management Partners

Contact: [REDACTED]

The Great Central U.S. ShakeOut will be on Oct. 21, 2021. TEMA is raising awareness about this annual campaign that helps Tennesseans understand how to protect themselves during an earthquake. All Individuals, schools, businesses, and organizations are encouraged to [register](#).

There are a number of resources to help promote the ShakeOut effort, including a [toolkit](#) with background about the ShakeOut, key messaging, talking points, and resource links you can utilize in your communications effort about the campaign. A [logo sheet](#) is also included with ShakeOut graphic elements for use on social media or on any electronic platform.

For more information, contact [Dean Flener](#).

★ PBS Programming Continues During October Statewide

Audience: Director of Schools, Educators, Families

Contact: [REDACTED]

During the month of October, the department has resumed and is providing academic instructional videos airing on PBS statewide, which provide video lessons for Pre-K-2 students. Additionally, there are math video lessons for specific grades.

Families can watch these instructional video lessons created specifically for Tennessee students on all six state PBS stations – WNPT Nashville, East Tennessee PBS, WCTE Upper Cumberland, WKNO Memphis, West TN PBS, and Chattanooga WTCI from 9 a.m. –11 a.m. CST.

The schedule for October can be found on the [department's website](#). PBS Teaching Tennessee classroom lessons for 1st-8th grade students can be found on the [department's YouTube page](#). All 320 lessons have companion teacher lesson plans and student packets. Learn more [here](#).

Academics

All Tennessee students will have access to a high-quality education, no matter where they live.

★ Applications Now Open for the 2021-22 Governor's Schools Program

Audience: *Directors of Schools, Principals, Assistant Principals, School Counselors, Teachers*

Contact: [REDACTED]

We are pleased to announce that all eleven Governor's Schools are now accepting applications for their 2021-22 summer programs. Each school offers a unique learning environment for students interested in one of the following disciplines: the arts, humanities, agriculture science, STEM programs, advanced mathematics, physics, leadership, international studies, Tennessee history, or potential teaching careers.

Each university host site offers a challenging and high-intensity program for rising 11th and 12th grade students nominated by high school faculty.

Additional information about the Governor's School programs, including contact and application information for all eleven schools, can be found [here](#).

With questions, contact [Charlotte Woehler](#).

★ Next Phase of State of the Arts Program: New Arts Education Network and Study Opportunities for Districts

Audience: *Directors of Schools, Instructional Supervisors, District Visual and Performing Arts Leads, Principals, Visual and Performing Arts Teachers*

Contact: [REDACTED]

The department is excited to announce the launch of the **State of the Arts: Arts Education Network** and **State of the Arts Study**. Through a partnership between the Tennessee Department of Education, CMA Foundation, and the Mr. Holland's Opus Foundation, we seek to better understand the inequities and barriers affecting the quality of arts education programming in order to better inform policymaking, district strategic planning, development of resources and support systems, and investment/philanthropic activities by conducting a first-of-its-kind statewide arts education landscape study. This analysis will identify the barriers preventing student access to high-quality programming, gaps in sequential K-12 pathways, and identification of the types of support needed at the school, district, and state level that would have the greatest impact on students.

[State of the Arts: Arts Education Network for Districts](#)

As part of the next phase of the State of the Arts program, the Department of Education will establish the **State of the Arts: Arts Education Network** as a mechanism to develop and strengthen public-private partnerships to support arts education and facilitate the collaboration and sharing of ideas and promising practices between districts. Membership in the Arts Education Network is **free** and open to all Tennessee public school districts and charter schools.

Network participants will have immediate access to the **State of the Arts Study**, a statewide landscape study/analysis of school and district arts education programs facilitated by the CMA Foundation and Mr. Holland's Opus Foundation in partnership with the Department of Education. The landscape study is a comprehensive assessment of district arts (dance, media arts, music, theatre, and visual arts) education programs powered by the Mr. Holland's Opus Foundation's Music Education District Support Services (MEDSS) framework and will collect data relative to the quality indicators of arts education programs. Participation in the State of the Arts Study is **free** for every Tennessee school district thanks to the generous support of the CMA Foundation.

There are a number of additional benefits that will be available to participating districts, including but not limited to arts content-specific professional learning communities (PLCs), access to the arts education content-specific professional learning toolkit and provider directory, and a free social media toolkit for Arts in Our Schools Month (March).

Learn more about the Arts Education Network, State of the Arts Study, and other network benefits [here](#).

In order to participate in the network, districts must designate a staff member as the Arts Education Network point of contact to serve as the arts education liaison between the district, Department of Education, and State of the Arts partners. Districts may consider designating one of the following personnel to be the point of contact:

- District arts education/fine arts coordinator or instructional coach;
- District instructional supervisor; or,
- In lieu of a district-level staff member, the district may designate a "lead" fine arts teacher (with three or more years of experience) to represent the district.

We encourage all districts to consider participating in the network in order to develop a strong network of practice across the state. Districts interested in participating in the network should [submit an intent to participate form](#). The intent to participate opt-in window opens **today, October 7, 2021**, and will remain open on a rolling basis.

With questions, reach out to [Todd Shipley](#), Director of Arts Education.

Reading 360 Early Literacy Network Updates

Audience: *Directors of Schools & Instructional Supervisors Participating in the Early Literacy Network*

Contact: [REDACTED]

The department launched the Early Literacy Network Communities of Practice and published the first Early Literacy Network Monthly Newsletter last week. Approved vendors for Pre-K–2 foundational skills implementation grants will be shared in early October.

The Early Literacy Network launch webinar held during the Reading 360 Summit provides recommended next steps for the grant funding for your implementation support provider, information about registering your team for the Using the Foundational Skills IPG module of the Communities of Practice, and additional information about the resources available within the network. Please view the [recording](#) of the Early Literacy Network Information Session and download the session [slide deck](#).

Future updates will be shared in the Instructional Supervisor Newsletter and the Early Literacy Network Monthly Newsletter.

Please reach out to [Kim Reznicek](#) with questions or if you are interested in participating.

Alternative Growth Scores for TN Universal Reading Screeners

Audience: Director of Schools, Instructional Supervisors

Contact: [REDACTED]

The [Universal Reading Screener Guidance: Alternate Growth Score](#) document has been posted to the 2021 Special Session Legislation [webpage](#). In this document, you will find guidance on how each state board-approved universal reading screener (URS) will be used to generate teacher growth scores for the 2021-22 school year. Beginning in the 2021-22 school year, districts have the option to select the universal reading screener as an alternative growth measure.

Because this will be the first year using universal reading screeners as an optional alternative growth measure, educator level of overall effectiveness (LOE) scores based on TN-URS data will be used only if those scores are higher than LOE scores produced with the educator's selected TVAAS composite growth score. This "best possible" process will apply **only to the 2021-22 school year**.

To support districts in finalizing their URS choice for the 2021-22 school year, **the department is extending the deadline for selecting a screener to Oct. 15**.

For additional support, please utilize the following resources:

- The department is hosting URS office hours from 10 - 11 a.m. CT tomorrow, Oct. 8 to support districts prior to the Oct. 15 deadline.
- With questions regarding the state board-approved screeners, please contact [REDACTED].
- With questions regarding the use of growth scores based on TN-URS data, please contact [REDACTED].

Updated Tennessee Universal Reading Screener Resources

Audience: Director of Schools, Instructional Supervisors

Contact: [REDACTED] Or [REDACTED]

Overview

The TN Universal Reading Screener was released by the department to provide a free and optional reading and math screener to enable districts to comply with the requirements of the Tennessee Literacy Success Act. Districts may also choose to use the other State Board of Education-approved universal reading screeners to meet the screening requirements required by the act.

Updated Matrix Guidance and Resources

In response to district feedback and engagement, as well as a review of all relevant laws and policies, the department is providing updated guidance and additional flexibility for districts related to the TN-URS and dyslexia screening. Please see [this guidance document](#) for more information and an updated TN-URS screening matrix.

All guidance documents, including the [Universal Reading Screener Administration: Requirements for Universal Reading Screeners](#), are publicly posted on the [2021 Special Session Legislation Resources webpage](#).

Support and Training

Support is available through weekly office hours every Friday from 10-11 a.m. CT. Join by using this [link](#).

Contact Information

With questions or for more information about the Universal Reading Screener, please reach out to [REDACTED].

Presidential Scholars Application Window Now Open

Audience: *Directors of Schools, Principals, Assistant Principals, School Counselors and CTE Directors*

Contact: [REDACTED] Or [REDACTED]

The Tennessee Department of Education is excited to share an opportunity for each Tennessee high school to nominate a maximum of two seniors to be considered as state finalists for the U.S. Presidential Scholars program. One senior may be nominated from each school for the general academic component of the program, and one senior may be nominated for the CTE component of the program.

General Academic Component

Our state can nominate high school seniors to be considered based on academic success and perseverance. The general academic component emphasizes the following areas on the application:

- Academic achievement
- Leadership skills
- Community involvement
- Overcoming obstacles
- Strong writing skills

The school principal, guidance counselor, or other designee may assist the student nominee with the completion of the online academic component state application, linked [here](#). Applications are due by **5 p.m. CT on November 6, 2021**.

CTE Component

Our state can nominate high school seniors to be considered based on excellence in career and technical education (CTE). This component emphasizes the following areas on the application:

- Academic rigor
- Technical competence
- Employability skills
- Ingenuity and creativity

The school principal, guidance counselor, or other designee may assist the student nominee with the completion of the online CTE component state application, linked [here](#). Applications are due by **5 p.m. CT on November 6, 2021**.

2021-22 United States Senate Youth Program Application Opens

Audience: *Director of Schools, Principals, Assistant Principals, High School Counselors, High School Teachers*

Contact: [REDACTED]

The application for the 2021-22 United States Senate Youth Program (USSYP) is open. This opportunity is open to junior or senior high school students. Two students will be selected as Tennessee delegates to participate in the annual Washington Week experience which includes a variety of events that promote a unique understanding of the structure of the United States government.

The program sponsor, the Hearst Foundation, also offers selected state finalists a \$10,000 undergraduate scholarship.

Additional information, including the application link, can be found [here](#). Student applications are due by **11:59 p.m. CT on October 15, 2021**.

Student Readiness

Tennessee public schools will be equipped to serve the academic and non-academic needs of all students in their career pathways.

2021-22 Middle School STEM & CTE Career Exploration Grants and the High School WBL Grant Intent to Apply

Audience: CTE Directors, Director of Schools, Principals, Educators, District Staff, CTE Educators

Contact: [REDACTED] & [REDACTED]

2021-22 Middle School STEM & CTE Career Exploration Start-up & Expansion Grants

The 2021-22 Middle School STEM and CTE Career Exploration Start-Up & Expansion Grants are intended to drive innovation in implementing middle school science, technology, engineering, and mathematics (STEM) and career and technical education (CTE) programs that will ultimately lead to increased opportunities for middle school students. In February 2019, Governor Bill Lee announced the Future Workforce Initiative aimed at increasing access to STEM and CTE in the classroom.

High School School-Based Enterprise (SBE) Start-up Grant

High-quality WBL partnerships with local businesses are thriving across the state, resulting in more students gaining valuable on-the-job training in high-growth occupations. However, in some areas, students face barriers to these types of experiences, such as a lack of transportation, restrictions on students in the workplace, and/or master scheduling conflicts.

In order to increase the number of students participating in high-quality WBL placements, the department has allocated \$120,000 to support LEAs in the development of a self-sustaining school-based enterprise (SBE) for WBL students to operate. The 2021-22 High School WBL School-Based Enterprise Start-Up Grants are intended to drive innovation in implementing high-quality work-based learning experiences for students who face barriers to participate in off-campus placements.

Grant Requirements & Deadlines

You can find requirements for the Middle School STEM & CTE Career Exploration Start-up & Expansion Grants and the High School School-Based Enterprise (SBE) Start-up Grant, including descriptions of all the opportunities, in the 2021-22 Middle School STEM and CTE Career Exploration Start-Up & Expansion Grant Announcement available [here](#). This comprehensive guide also includes grant application questions that districts can use to draft responses prior to applying in ePlan.

Please note the important deadlines listed in the announcement. Prior to submitting a completed application in ePlan, all eligible applicants (LEAs) must submit a [Notice of Intent to Apply](#) by **11:59 p.m. CT on Thursday, Oct. 14**. Failure to submit a Notice of Intent to Apply by the stated deadline will disqualify any subsequent application.

Grant applications will be available in ePlan on **Monday, Oct. 18**. The application period will close on **Monday, Nov. 1 at 11:59 p.m. CT**.

Summer 2022 Advanced Placement Summer Institute Sign Ups

Audience: Counselors, Director of Schools, District Staff, Educators, Principals, Secondary Supervisors, School Staff

Contact: [REDACTED]

The Niswonger Foundation, in partnership with the department, has opened its scholarship registration for summer 2022 Advanced Placement Summer Institutes (APSI) to be held in Tennessee.

Educators who are interested in teaching AP in either the home district or virtually through AP Access for ALL should apply! To apply for a scholarship click [here](#) and submit by **Tuesday, Nov. 30, 2021**.

APSI's are week-long summer professional development opportunities led by veteran AP teachers and college faculty that prepare educators to teach AP courses. To learn more about APSI's click [here](#).

STEM/STE(A)M Designation Application Now Open!

Audience: CTE Directors, CTE educators, Educators, Principals, Secondary Supervisors

Contact: [REDACTED]

The 2021-22 STEM or STE(A)M School Designation application is now open through January 17th. Schools that have completed the self-assessment and indicated their intent to apply will submit their full application, including narrative responses and artifacts for each section, through the online platform shared during the initial phone interview.

Tennessee STEM and STE(A)M School Designation was developed to provide a "roadmap" for schools to successfully implement a STEM or STE(A)M education plan at the local level. The tools and resources created define the attributes necessary for a school to create a comprehensive STEM or STE(A)M learning environment for its students. A school that receives Tennessee STEM or STE(A)M School Designation will be recognized by the Tennessee Department of Education for its use of STEM or STE(A)M teaching and learning strategies and serve as a model from which other schools may visit and learn. All K-12 schools serving students in Tennessee are eligible. Schools interested in a STEM or STE(A)M Designation should visit the [Tennessee STEM Innovation Network website](#).

Resources for the STEM/STE(A)M Designation process can be found [here](#).

Register for the 2022 Winter Occupational License New Teacher Training (OLNTT)

Audience: Counselors, CTE Directors, CTE Educators, District Staff, Educators, School Staff, Secondary Supervisors

Contact: [REDACTED]

Mark your calendars for the 2022 Winter Occupational License New Teacher Training (OLNTT) to be held January 10-14, 2022 at The Read House in Chattanooga, TN. This training ensures that new career and technical education (CTE) teachers are prepared to achieve immediate, measurable success with their students upon entering the classroom.

As this training is our first in-person training since COVID, there are limited capacities for each career cluster group. Registration is expected to fill up quickly and will close **Friday, Dec. 10, 2021**. No late registrations will be accepted.

NOTE: Currently, this training is expected to be held in person. We are actively taking precautions and making decisions for the overall wellbeing of our attendees and training staff, as well as considering the best method to deliver the information. If it is determined that the best course of action is to host this event virtually, that decision will be made by Monday, Nov. 1. All registered attendees will be notified, and the registration website will be updated to reflect the decision to go virtual. There will be no hybrid option for this training.

To register, click [here](#).

Register today as space is limited to 50 registrants per group. The group structure we will use for the week of OLNTT is listed below:

- Group 1: Health Science

- Group 2: Law, Public Safety, Corrections & Security
 - Group 3: Arts, AV Technology & Communications, IT, STEM
 - Group 4: Human Services, Hospitality & Tourism, Supply Chain Management, & Academic Content Areas
 - Group 5: Advanced Manufacturing, Architecture & Construction, Transportation
-

Applications Now Open: TVA STEM Classroom Grant Program

Audience: CTE Educators, Educators, Principals

Contact: [REDACTED]

The Tennessee STEM Innovation Network and STEMx network, managed by Battelle, are pleased to announce the 2021-22 K-12 classroom STEM grant program sponsored by the Tennessee Valley Authority in partnership with Bicentennial Volunteers Incorporated (a TVA retiree organization). The grant program is designed to fund STEM learning projects in classrooms and schools in the TVA service area.

Last year's program awarded \$800,000 in grants to schools across the Tennessee Valley. The competitive grant program provides teachers the opportunity to apply for funding up to \$5,000 for STEM projects with preference given to grant applications that explore TVA's primary area of focus: environment, energy, economic and career development, and community problem solving.

The grant application is open now at www.tsin.org/classroom-grants and will remain open until **Monday, Oct. 18, 2021**. Eligible applicants are K-12 teachers or school administrators in public or private schools that receive power from a TVA distributor.

Announcing the Statewide Design Challenge

Audience: CTE Educators, Educators, Principals

Contact: [REDACTED]

TSIN, in collaboration with the TN Chamber of Commerce, is excited to announce the 2022 Statewide Design Challenge: Infrastructure. Infrastructure is defined as the basic physical and organizational structures and facilities needed for the operation of a society or enterprise, which includes roads, buildings, utilities/power supplies, and more!

This year's challenge invites students to consider how they can improve their school, community, or world by reimagining an existing physical space, system, product, or service so that it is more equitable, accessible, or efficient. Students have a choice about how they approach the topic to best consider the needs of their local communities.

Participating schools will conduct classroom-level presentations and then nominate outstanding projects to participate in a virtual competition in Spring 2022. For safety and equity, all competitions will be held virtually this year. The cost and time of travel can be a burden to some families and schools. To alleviate that burden and encourage more students to explore STEM challenges, we will hold all levels of competition virtually. No student should be excluded from this opportunity due to constraint of their location in the state.

Sign up [here](#) to receive a Welcome Packet email.

TDOE & UT Martin Offer Free ACT Prep Workshops and Classes to All Tennessee High School Students and Teachers

Audience: Counselors, Director of Schools, CTE Educators, CTE Directors, Educators, Principals, School Staff, Secondary Supervisors

Contact: [REDACTED]

In partnership with the University of Tennessee at Martin (UT Martin), the [department announced](#) in May that all Tennessee high school students and teachers will have access to workshops that help prepare students to succeed on the ACT, one of the most important college entrance exams offered to high school students across the country. These workshops began in Summer 2021 and are expected to continue through Fall 2022.

This fall we will offer five (5) [ACT Teacher Workshops](#). These free, two-hour workshops, conducted via Zoom, will provide strategies and practical skills to teachers to help them improve student ACT outcomes. Interested teachers can learn more about and register for the workshops [here](#).

The [ACT Success Tactics Workshops and Mastery Classes](#) and [Virtual Office Hours](#) are available to rising 11th and 12th graders in Tennessee. During these free virtual workshops, we will share resources and tools that will teach students effective test-taking strategies, as well as provide them content practice in specific subject areas. Interested students can learn more about and register for the workshops, classes, and office hours [here](#).

Educators

Tennessee will set a new path for the education profession and be the top state to become and remain a teacher and leader.

Educator Preparation Working Group – Call for Participants

Audience: EPPs & LEAs (Directors of Schools, Supervisors, Principals, Educators)

Contact: [REDACTED]

The department is seeking representatives from both districts and educator preparation providers to serve on the educator preparation working group (EPWG) for the 2022 and 2023 calendar years. The EPWG provides clear and transparent lines of communication between the department and various stakeholder groups regarding key initiatives associated with improving educator preparation. Members include both EPP and district representatives who work together to support the department's efforts to ensure educators entering Tennessee classrooms are well-prepared to meet the needs of all students.

This application is open to any EPP or LEA faculty or staff member except those who served on the EPWG during the 2020 and/or 2021 calendar years. Individuals interested in participating in the EPWG for the 2022-23 calendar years should complete the [application](#) by **Friday, Nov. 19**.

SPED Interventionist 6-12 & SPED Comprehensive K-12 Add'l Endorsement Grant Program Registration Deadline

Audience: Directors of Schools, HR Directors, Special Education Directors, ESL/ELL Directors, Principals, Teachers

Contact: [REDACTED]

The department is pleased to announce an extended self-registration deadline for the **Special Education Interventionist 6-12(145)** and **Special Education Comprehensive K-12(461)** additional endorsement programs being offered through **University of Tennessee-Knoxville**. Tennessee educators with a current, valid teaching license are encouraged to self-register for these

opportunities by **October 29, 2021**.

In August 2021, the department announced new **Special Education** and **English as a Second Language Additional Endorsement Grant** partnerships with **Trevecca Nazarene University** and **University of Tennessee-Knoxville**. Together, these programs will provide the opportunity for up to **2,400 educators** to add an endorsement in either **Special Education (SPED)** or English as a Second Language (ESL) over the course of the 2021-22 school year.

Coursework will begin in Fall of 2021 and will be offered in an **online, asynchronous** format at no cost to participants. Grant funds will also cover the cost of one administration of a required licensure assessment. For the SPED additional endorsement opportunities being offered, either LEAs or participants will be responsible for covering the cost of 1 required PRAXIS exam prior to earning endorsement. Participants completing the SPED additional endorsement program will also have the opportunity to serve on a provisional Special Education endorsement if they so choose.

With **2,400** total seats available across all 4 programs during the 2021-22 school year, the Department hopes to enroll roughly **600** educators on an annual basis in each of the additional endorsement areas covered as part of the grant award, as listed below:

Endorsement Area	Endorsement Code
Special Education Interventionist K-8	144
Special Education Interventionist 6-12	145
Special Education Comprehensive K-12	461

English as a Second Language*

Endorsement Area	Endorsement Code
English as a Second Language Pre-K-12	490

***Note:** The English as a Second Language and SPED K-8 Interventionist additional endorsement pathways being offered as part of this grant opportunity are currently **at capacity**. Participants will be added from waitlists for these programs as space allows based on the order in which they submit their name and information.

Self-Registration for SPED Interventionist 6-12 and SPED Comprehensive K-12 Additional Endorsement Programs: Due by October 29, 2021

In order to register for participation in one of these additional endorsement opportunities, currently licensed Tennessee teachers serving in an instructional role should complete one of the relevant forms below by **Friday, October 29, 2021**.

Special Education Self-Registration Forms:

- [Special Education Interventionist 6-12 Additional Endorsement Participant Registration Form](#)
- [Special Education Comprehensive K-12 Additional Endorsement Participant Registration Form](#)

The department is continuing to accept waitlist registration for the **SPED Interventionist K-8 Program**. Interested participants should complete the relevant waitlist registration form linked below. Participants will be added from the waitlist as space allows based on the order in which they submit their name and information.

Special Education Interventionist K-8 Waitlist Registration Form:

- [Special Education Interventionist K-8 Additional Endorsement Waitlist Registration Form](#)

Seats in each endorsement pathway will be filled on a first-come, first-served basis, until all seats are filled.

Please note: Those individuals who have already been nominated by their LEAs for this opportunity, or for another additional endorsement opportunity being offered by TDOE, will not be eligible for self-registration at this time.

With questions, please contact [REDACTED].

PAEMST Awards: 2022 Nominations Now Open

Audience: Director of Schools, Principals, School Administrators, Educators

Contact: [REDACTED]

The **Presidential Awards for Excellence in Mathematics and Science Teaching (PAEMST)** are the highest honors bestowed by the United States government specifically for K-12 science, technology, engineering, mathematics, and/or computer science teaching.

Anyone—principals, teachers, parents, students, or members of the general public—may nominate exceptional STEM teachers who are currently teaching grades K-6 for the 2022 award year. Teachers may also apply directly [here](#).

Presidential Awardees receive a certificate signed by the President of the United States; a trip to Washington, D.C., to attend a series of recognition events and professional development opportunities; and a \$10,000 award from the National Science Foundation. They also join a network of award-winning teachers from across the country. The National Science Foundation administers PAEMST on the behalf of The White House Office of Science and Technology Policy.

The **nomination deadline is January 7, 2022**, and the **application deadline is February 6, 2022** for elementary teachers (grades K-6). Secondary teachers (grades 7-12) will be eligible to apply during a future cycle.

With questions, please contact Tennessee PAEMST coordinator, [Janelle Brown](#).

Supporting Work

InformTN District Planning Timeline

Audience: Directors of Schools, Supervisors

Contact: [REDACTED]

At the conclusion of district planning in spring 2021, district leaders shared feedback on the district planning process through the annual InformTN District Survey. Based on your feedback, we learned a great deal about improvements and adjustments to better meet the needs of stakeholders. After identifying the trends in the survey data, we have made updates to the platform for greater usability, increased support opportunities and guidance to aid in strong planning, and extended the planning timeline. An extended planning timeline was one of the pieces of feedback most often shared and is one of the most significant changes you'll experience in district planning this year.

The district planning window will be open from **November 8 to March 1**. Reviewing of plans will begin on **March 1, 2021**, and conclude with plan approvals by **April 15, 2022**. Throughout the planning window, you will have opportunities for support from various TDOE divisions that include training sessions, recorded webinars, individual support meetings, and office hours. More

information about these supports for your planning team will be shared in the coming weeks.

The timeline for the 2022-23 planning cycle can be found [here](#).

Seat Restraint Grant

Audience: *Directors of Schools, Transportation Supervisors*

Contact: [REDACTED]

The General Assembly appropriated \$3 million in nonrecurring funds in the fiscal year 2018 for a school bus seat restraint demonstration program. The funds have been earmarked to help districts, charters, and charter management organizations address the extra costs associated with equipping school buses with seat restraints. The Tennessee Department of Education (TDOE) student transportation team is tasked with the implementation of the grant program.

In order to receive grant funding for this program, LEAs will need to complete all components of the Grant Application and return all required sections to the TDOE student transportation department via email to [REDACTED]. The grant application window will be open from **October 15, 2021 to March 31, 2022**.

Any questions regarding the grant or application process should be directed to the grant administrator, [Alex Spann](#).

2021 LEA Compliance Report

Audience: *Directors of Schools*

Contact: [REDACTED]

Districts are required to comply with all federal and state education laws and State Board of Education (SBE) rules. The commissioner of education is responsible for ensuring school laws and SBE rules are executed as well as taking corrective action when a district is noncompliant with those laws and rules or is not following a department-approved compliance plan.

The LEA Compliance Report is a document used by the department in its annual process of ensuring compliance. All districts are required to complete the [report](#), including the [corrective action plan template](#) if applicable, and upload it to ePlan (instructions [here](#)) by **November 30**.

Assessment and Accountability

2021-22 WIDA ACCESS Technology Webinars

Audience: *Directors of Schools, Tech Directors*

Contact: [REDACTED]

Data Recognition Corp (DRC) and WIDA will be hosting a series of Technology Webinars for Technology Coordinators in the 2021-22 school year. The purpose of the webinars is to provide details related to the ACCESS 2021-22 Software Updates, Technology Installations, Technology Coordinator Support for Test Administrators, and Troubleshooting. Please see below for the links to

register. If you are unable to attend, a recording will be available in [WIDA AMS](#) under *My Applications > General Information > Documents* after the presentation.

Topic: [Pre-Testing Technology Coordinator Support for Test Administrators](#)

Date: Tuesday, November 9, 2021

Time: 1- 2 p.m. CT

Provide technology coordinators with information to communicate with test coordinators and administrators. Facilitate how to establish a local communication plan to identify issues and troubleshoot if problems arise. Review when to support test administrators at their testing sites by training them to respond to technical issues as well as when/how to report issues.

Topic: [During Testing: Technology Troubleshooting](#)

Date: Thursday, January 6, 2022

Time: 1- 2 p.m. CT

An overview of the various troubleshooting solutions as well as common error messages.

Please contact DRC Customer Support with any questions at 1- [REDACTED] or [REDACTED].

Release of EOC Mock-Interim Assessments

Audience: *Directors of Schools, Supervisors of Student Services, Principals, and Assistant Principals, District Testing Coordinators*

Contact: [REDACTED]

Mock Interims for all grades and subjects are now available in [Schoolnet](#). Mock Interims yield better information for educators than a traditional practice exam. These are full-length, summative, blueprint-aligned exams that can be used to gauge mastery of grade-level content and serve as practice exams. They can be used to monitor student progress toward building the knowledge and skills reflected in the full breadth of the Tennessee Academic Standards. Mock Interims for grades 3-8 Math, ELA, and Science, and grades 6-8 Social Studies are now live, along with all EOC courses including math, ELA, U.S. History and Biology. Educators can administer the tests online in the Schoolnet platform or print paper copies and scannable answer documents for paper test administration and easy platform scoring and reporting. To learn more about Schoolnet, visit [our resources page](#).

Spring 2021 TCAP Family Portal Data Now Available

Audience: *Directors of Schools, Educators*

Contact: [REDACTED]

Each year, TCAP tests are designed to assess what our students know and what we can do to help them succeed in the future. They provide feedback about students' academic progress and how it aligns with grade-level expectations. Now families can find detailed, personalized, information about their child's progress on the TCAP Family Portal.

Here are some ways to use the TCAP Family Portal:

- Identify student strengths and next steps for areas to improve in the future.
- Use information presented in the portal to engage in conversations with educators about your student's academic progress.
- Track progress over time with a "Test History" feature.
- Find helpful links to department TCAP resources.

Families can register [here](#) with their student's USID number. Data from the spring 2021 testing went live in the portal on Friday, July 30 for TCAP and became available on August 20 for TCAP-Alternate. Use the seven-digit number found on your student's ISR and add two zeroes in front of that number. The resulting nine-digit number will enable you to create an account for your student. For example, a state ID [REDACTED] would become [REDACTED].

A toolkit to support districts in communicating about this resource is available [here](#), including the Family Portal FAQ available [here](#). Videos to help users in navigating the portal are available on [Best for All Central](#).

Districts may access the TCAP Family Portal Help Guide and the TCAP Educator Portal Help Guide on [LiveBinders](#).

National Assessment Governing Board Nominations

Audience: *Directors of Schools, District Testing Coordinators, Special Population Coordinators*

Contact: [REDACTED]

The National Assessment Governing Board (NAGB), which develops policy for the National Assessment of Educational Progress (NAEP), is seeking candidates for several positions (to be appointed in fall 2022), including fourth-grade teacher, eighth-grade teacher, secondary school principal, and general public representative-parent leader.

Candidates can nominate themselves or be nominated by someone else. **Board nominations must be submitted online by Nov. 1, 2021.**

You can learn more about the open positions, Board members' responsibilities, and the submission requirements [here](#). This is a great opportunity to have the voice of Tennessee and your community represented on our national stage. All interested educators are encouraged to apply.

In Case You Missed It

2020-21 State Report Card Release

Audience: *Director of Schools*

Contact: [REDACTED]

In September, the Tennessee Department of Education released the [2020-2021 State Report Card](#), an online tool to help parents, families and education stakeholders better understand Tennessee's districts and schools and learn about how they are serving their students.

The State Report Card provides stakeholders with information about how Tennessee schools and districts are performing to inform decisions and strategic investments to best support students. In addition to information available in previous years, the 2021 State Report Card has additional sections to provide additional school and district data and indicators.

On this year's State Report Card, as in previous years, contains general information, enrollment, and staffing data, and performance indicators—including academic achievement, chronically out of school, progress on English language proficiency, Ready Graduate, and Graduation Rate — at the district- and school- level.

The 2020-21 Report Card has been improved and contains several new features including:

- TCAP success rates and participation rates

- Designation flags to indicate [Reward, Priority, ATSI, & CSI schools](#)
- Tennessee Excellence in Civics Education Districts and Schools recognized by the [Governor's Civics Seal](#)
- Improved accessibility across district and school pages
- Redesigned overall performance and information pages

Access the State Report Card [here](#).

Statewide Literacy Awareness Campaign Launched: Starting with Sounds

Audience: *Director of Schools*

Contact: [REDACTED]

On Monday, the Tennessee Department of Education, in collaboration with Tennessee PBS, [launched Starting with Sounds](#), a [Reading 360](#) statewide awareness campaign to help Tennessee parents and students understand the importance of reading in an engaging and fun way.

In collaboration with Tennessee PBS, the state's six PBS stations- WCTE, WETP, WKNO, WKOP, WLJT, WNPT, WTCI- covering east to west and north to south, the department created [Starting with Sounds](#) to highlight the importance of early literacy and how families and students can practice reading by watching and listening to national and local musicians, athletes, and champions of student success read their favorite books and sing songs to help build these critical skills.

A list of the participating musicians, athletes, notable Tennesseans and national champions of youth achievement with links to their recorded videos is as follows:

- [Jason Crabb](#): Grammy award-winning singer and musician reads children's book "Most Days" and sings "What a Wonderful World"
- [Ellie Holcomb](#): Singer-songwriter reads children's book "My Father's Dragon" and sings "Family"
- [Kathy Mattea](#): Grammy award-winning country music and bluegrass singer reads "The Wind in the Willows" and sings "One Light, One Sun"
- [Ketch Secor](#): Grammy award-winning singer and founding member of Old Crow Medicine Show reads "Lorraine"
- [Scott Hamilton](#): Olympic gold medalist reads "Fritzzy Finds a Hat"
- [Jake Hoot](#): NBC's "The Voice" winner and country music singer reads "Bloom" and sings "Best Job I Ever Had"
- [Carl Ray](#): Country music singer reads and sings "Tiger in my Soup"
- [Kelly Lang](#): Award-winning singer/songwriter reads "Most People"
- [Rissi Palmer](#): Country music singer reads "Magnificent Homespun Brown" and sings "Best Day Ever"
- [Rob Ickes and Trey Hensley](#): Grammy Award nominees and nationally known award-winning musicians read "Farmer Falgu Goes on a Trip" and sing "No More Hard Times Blues"
- More to come!

Starting November 1, Starting with Sounds will air on Tennessee PBS during the department's [regularly scheduled](#) time block from 9 a.m.- 11 a.m. CT. Additional Starting with Sounds videos will be added soon, including videos featuring celebrities like country music singer Tenille Townes and country music singer and songwriter Niko Moon. Local and national musicians, athletes, and other champions for student success are invited and encouraged to participate. Click [here](#) to learn more.

Gov. Lee, TDOE Promising Results From Historic Special Session on Education

Audience: *Director of Schools*

Contact: [REDACTED]

On Wednesday, Sept. 22, Tennessee Governor Bill Lee and the Tennessee Department of Education [shared encouraging data](#) around the state's investment in academic summer camps to address learning loss and accelerate achievement for Tennessee students.

Throughout the pandemic, Tennessee has led the nation in providing academic supports for students. In January 2021, Governor Lee convened the Tennessee General Assembly for a [special legislative session](#) to pass policies to mitigate COVID-19 disruptions and support Tennessee students.

The [Tennessee Learning Loss Remediation and Student Acceleration Act](#) passed in special session provided funding to local school districts for K-8 academic summer camps across the state.

New data from summer camps will further inform how the state, schools, teachers and families can support student success.

Promising Results Include:

Strong Student Participation:

- This summer, both summer learning camps and after school STREAM camps had higher attendance in elementary grades compared to middle school grades.
- Overall, more than 120,000 Tennessee students enrolled in summer programming across the state.

English and Language Arts:

- Overall, data showed an improvement of 5.97 percentage point.
- Elementary grades saw an improvement of 7.34 percentage point.
- Middle school grades saw an improvement of 0.66 percentage points.

Math:

- Overall, data showed an improvement of 10.49 percentage points.
- Elementary grades saw an improvement of 11.66 percentage points.
- Middle school grades saw an improvement of 6 percentage points.

Find the Accelerating TN Tour 2021: Bright Spots Guide [here](#).

Key Takeaways from Reading 360 Virtual Summit

Audience: *Director of Schools*

Contact: [REDACTED]

The [Reading 360](#) Summit took place last week with over 1,900 attendees, 27 unique sessions and 32 presenters focused on improving educator literacy practice through sharing of best-practices and resources.

- Participants included district and school leaders, teachers, education prep providers(EPPs), community partners, and parents.
- The summit utilized a virtual platform to host an interactive experience for Summit participants and could be accessed from across the state.
- Over the three-day summit, there were 7 round table discussions and over 27 unique breakout sessions.

- Sessions focused on literacy networks, high quality materials implementation, foundational skills literacy instruction, family and community partnerships, and EPP course development to prepare future educators to enter their first year in their classroom equipped to teach reading as neuroscientists.

Recordings from the summit will be available on [Best for All Central \(BFAC\)](#) for participants to continue to utilize lessons learned and materials. More information coming soon.

District Information Dashboard & Attendance Coding

Audience: Director of Schools

Contact: [REDACTED]

The Department has relaunched the District Information Dashboard for the 2021-2022 School Year. In addition to providing reporting on COVID counts in schools/districts, the dashboard will provide federal reporting requirements required under ESSER. You can find the dashboard at: <https://districtinformation.tnedu.gov>.

New on the dashboard this year:

- If your district offers remote instruction during quarantine, you will be able to flag that information on the district information page.
- ESSER Allocations: The dashboard will provide a sum of ESSER 1.0, 2.0, and 3.0 plans submitted by the district and approved by the state. This data will come straight from ePlan and will not require any input from the district.
- Enrollment and Attendance information: After the 15th of each month, the dashboard will provide a view of enrollment and attendance data submitted by the district through your student information systems into EIS.
- Waiver information: On a school level, if you are granted a waiver, this information will be inputted by the department and reflected on the school listing within the district.
- Links to ESSER document and response plans: The dashboard will provide links to your ESSER plan documents as well as your publicly posted, locally adopted COVID mitigation strategies and your ESSER-required health and safety plan. We ask that you submit the links to those documents for the department to link to your district profile by filling out the survey here.

Like last year, COVID counts should be entered by the district representative no later than 5 p.m. CT on Mondays for confirmed COVID cases in the schools during the previous week. **ANY DATA ENTERED AFTER 5 p.m. CT WILL NOT REFLECT ON THE DASHBOARD for the previous week.**

For attendance coding, which will be reflected on the dashboard, the EIS attendance code D, Distance Learning, was introduced last year to assist districts across the state as students transitioned to a distance learning model. In order to support State Rule 0520-01-13-.01(1)(d), the D attendance code will be updated as follows for the 2021-22 school year: D, Distance Learning/Virtual Classrooms Due to Quarantine.

The D attendance code will continue to be used for positive attendance reporting to track students that are participating in district sponsored remote learning based on local school board policy.

In order to ensure students are counted present accurately during any remote instruction period, there are 3 scenarios under which the “D” code shall be used for positive attendance reporting:

- Individual students that are quarantining due to COVID
- Classrooms that are utilizing remote learning with an approved Commissioner waiver.
- Schools that are utilizing remote learning with an approved Commissioner waiver.

Districts that are not offering remote instruction for students who are quarantined due to COVID should be counted as absent (A).

If you or your designated representative do not have access to the dashboard, please contact the District Technology Help Desk at [REDACTED] and complete the access request form.

TDOE Remote Learning Waiver Letter and Application

Audience: Director of Schools

Contact: [REDACTED]

For cases where districts can demonstrate and document COVID-related needs in their school communities that necessitate a temporary shift to remote instruction for classrooms or entire schools, Commissioner Schwinn will entertain waiver requests for districts to provide temporary remote instruction due to COVID-19 at the classroom and school level.

This waiver process is not required for individual students on quarantine to receive remote instruction, and waivers, if approved, will be valid for up to seven calendar days. The department will review waiver requests three times a day at 9am, 12 noon, and 3pm CT and respond in writing to the district as quickly as possible.

The commissioner of education is authorized by state law and state board of education (SBE) rule to grant waivers of certain statutes and SBE rules to local education agencies (LEAs) upon request. Pursuant to T.C.A. § 49-1-203 and SBE Rule 0520-01-02-.12(6), the department will post any approved waivers within five (5) business days of the commissioner's approval to our website. The waivers shall include the name of the LEA requesting the waiver and an explanation of the waiver requested.

All waiver requests and responses related to the COVID-19 Remote Learning Waiver will be posted daily at 5:30 p.m. CT. Waivers that come in after 5:30 p.m. will be posted the following day. They will be accessible through [this link](#) at the very bottom of the webpage.

The letter Commissioner Schwinn shared with directors about the application and process can be found [here](#) and the LEA COVID-19 Relief waiver request application can be found [here](#).

Free ACT Retake Opportunities Available for All Tennessee High School Seniors to Help Boost Scores

Audience: Director of Schools

Contact: [REDACTED]

Earlier this month, the Tennessee Department of Education [highlighted](#) an opportunity this fall for all high school seniors to boost their scores on the ACT college entrance exam after taking the test the first time as a junior during the COVID-19 pandemic. While a [recent ACT, Inc. study](#) found that the 2020-21 ACT results indicated an anticipated decline in ACT scores nationwide, Tennessee is the first and only state to offer this free retake opportunity to every Tennessee high school senior this fall.

This year, the department is urging all Tennessee high school seniors to take advantage of the fall ACT retake opportunity and has expanded the state testing windows to provide additional options. ACT Inc.'s research shows that students who take the ACT more than once increase their score by an average of 1 point. Students who improve their scores in one or more subject areas tested will have their super-score composite available to send to postsecondary institutions and scholarship programs.

Districts across the state will be able to offer the free fall ACT retake opportunities during one of the following two-day windows:

- October 5-7, 2021
- October 19-21, 2021
- November 2-4, 2021

For more information, click [here](#).

Dates to Remember:

* Dates are subject to change as things continue to update. Please check the department's [online calendar](#) for updated dates.

- **October 7:** Arts Education Network Intent to Participate Opt-In Window Opens
- **October 11-25:** ELC Grant Intent to Apply Window
- **October 14:** HS School-Based Enterprise (SBE) Start-up Grant Intent to Apply Deadline
- **October 14:** Middle School STEM & CTE Career Exploration Start-up & Expansion Grant Intent to Apply Deadline
- **October 15:** United States Senate Youth Program Application Deadline
- **October 15:** Seat Restraint Grant Application Window Opens
- **October 15:** 2021-22 Universal Reading Screeners Selection Deadline
- **October 18:** TVA STEM Classroom Grant Program Application Deadline
- **October 18:** Middle School STEM & CTE Career Exploration Start-up & Expansion Grant Applications Available
- **October 18-22:** Annual EPSO Week
- **October 29:** SPED Interventionist 6-12 & SPED Comprehensive K-12 Additional Endorsement Programs Self-Registration Deadline
- **November 1:** Deadline to submit NAGB Board Nominations
- **November 1:** Middle School STEM & CTE Career Exploration Start-up & Expansion Grant Application Deadline
- **November 1:** HS School-Based Enterprise (SBE) Start-up Grant Application Deadline
- **November 6:** Presidential Scholars Application Deadline
- **November 8:** InformTN District Planning Window Opens
- **November 9:** Pre-Testing Technology Coordinator Support for Test Administrators Webinar
- **November 19:** EPWG Application Deadline
- **November 30:** 2021-22 Growth and Achievement Measure Selections and Scales Deadline
- **November 30:** LEA Compliance Report Due Date
- **November 30:** 2022 Advanced Placement Summer Institute Sign Up Deadline
- **December 10:** OLNTT Registration Closes
- **January 6:** During Testing: Technology Troubleshooting Webinar
- **January 7:** 2022 PAEMST Awards Nomination Deadline
- **January 10-14:** 2022 Winter Occupational License New Teacher Training
- **February 6:** 2022 PAEMST Awards Application Deadline
- **March 1:** InformTN District Planning Window Closes
- **March 31:** Seat Restraint Grant Application Window Closes
